## Notes on the *Tauf* [Baptismal] Register

(Baptismal Records File 2 of 2 from Volume One of the Kirchenbuch)

These Baptismal Register pages from the founding Church Register [*Kirchenbuch*] of the German Evangelical Church of Boonville, Missouri (now the 'United Church of Christ of Boonville') were photographed in 2011 by Harry Enderle of Boonville, as commissioned by John Hopkins, with the enablement of (then) church secretary Theresa Krebs.

The coloring and image quality varies from page to page, due to the condition of the original book. The writing style and legibility also differs from page to page, due to the different pastors or clerks entering the data over the years as well as the pens and ink they used.

As the text comprises only the birth and baptismal dates of the person being baptised, the name they were given and the names and places of origin of the parents, as well as the name of the sponsors/witnesses, translation into English was not necessary.

The images have been combined to show the left-and-right views when the book is open. With the resulting horizontal orientation of each images, two have been put on each of the 'pages' of this digital edition. As the edition is in PDF format, the images/pages can easily be magnified for easier reading of the detail.

This file comprises Part Two of two files of baptismal records from Volume One of the Kirchenbuch, covering baptisms from 1862-1872. The records from Volume One were divided into two files in order to keep the overall size of the PDF reasonable, as the images must appear in high resolution in order to remain readable when enlarged in a PDF reader.

Possible additions or corrections to this digital version will be made to the current online file, with the revision history indicated by the 'update' field below.

Original online version: 16 April 2018
